APPLICATION DESIGN

La duttilità della tecnologia LPT consente di adattare le varie collezioni di prodotti sviluppate da LPT generando progetti che spaziano dal semplice pavimento o rivestimento di piccole e grandi superfici, all'applicazione su oggetti e complementi d'arredo. Realizzare veri e propri manufatti o installazioni con un nuovo concetto di leggerezza e prestazione tecnica coniugata è ora possibile avendo accesso anche alle prestazioni superiore date dalla tecnologia ceramica. La natura stessa del materiale consente inoltre al progettista di declinare ognuna di queste possibilità in ambienti interni ed esterni sviluppando superfici omogenee, curve e anche retroilluminate.

The flexibility of LPT technology allows the various product collections developed by LPT to be completely adapted to generate projects ranging from simple flooring or coverings for large or small surfaces to object-based applications and furnishing accessories. Using this new concept that combines light weight and technical performance, it is now possible to create genuine products or installations with the added benefits that come with ceramic technology. The very nature of the material also lets designers apply each of these possibilities in indoor and outdoor environments to develop smooth, curved and even backlit surfaces.

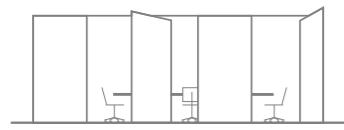

Die Flexibilität der Technologie LPT erlaubt es, die verschiedenen Kollektionen von LPT aufeinander abzustimmen, und Projekte zu realisieren, die vom einfachen Bodenbelag oder der Wandverkleidung kleiner und großer Flächen bis zu Anwendungen für Objekte und Möbel reichen. Anspruchsvolle Arbeiten oder Installationen mit einem neuen Konzept, das geringes Gewicht und hohe technische Leistungen verbindet, sind jetzt möglich. Aufgrund der Keramiktechnologie sind dabei auch höhere Leistungen erreichbar. Das Wesen des Materials selbst ermöglicht es dem Planer, jede dieser Möglichkeiten sowohl im Innen- als auch im Außenbereich auszuschöpfen, um so einheitliche durchgängige oder gewölbte Flächen oder Anwendungen mit Hintergrundbeleuchtung auszuführen.

La souplesse de la technologie LPT permet d'adapter les différentes collections développées par LPT en créant des produits qui vont du simple carrelage au revêtement de petites et grandes surfaces à l'application sur des objets et articles de décoration. Il est désormais possible de réaliser de véritables articles manufacturés ou des installations avec un nouveau concept de légèreté, associé à une prestation technique, en accédant aussi aux prestations supérieures apportées par la technologie céramique. De plus, la nature même du matériau permet au concepteur de décliner chacune de ces possibilités dans des espaces intérieurs et extérieurs, en réalisant des surfaces homogènes, courbes et même rétroéclairées.

BACKLIGHT

Lo spessore estremamente contenuto di 6 mm insieme all'evoluta tecnologia consentono ad alcuni prodotti LPT di poter essere attraversate da un fascio luminoso di adeguata potenza ottenendo la traslucenza del materiale.

The extremely reduced 6mm thickness, together with the advanced LPT technology, allows an appropriately powerful band of light to travel through the Ultra slabs and backlight the material.

Die auf 6 mm extreme beschränkte Dünne, gepaart mit der fortschrittlichen LPT-Technik, erlaubt es den Platten Ultra von einem ausreichenden starken Lichtstrahl durchdrungen zu werden und so den Durchlichteffekt des Materials zu bieten.

L'épaisseur extrêmement réduite de 6 mm associée à la technologie évolutive, permettent à certains produits LPT, d'être traversés par un faisceau lumineux, d'une puissance appropriée pour obtenir la translucidité du matériel.

VARIABILITÀ E BOOK-MATCHING

ACTIVE SURFACES prevede un certo numero di facce differenti, a parità di prodotto, per creare una gradevole variabilità estetica nella posa. In fase di approntamento dell'ordine la selezione delle facce è random quindi la venatura continua tra i pezzi ordinati non è garantita. ACTIVE SURFACES è un prodotto derivante dalla combinazione della terra con il fuoco. La eventuale continuità di venatura tra un pezzo e l'altro è soggetta alla tolleranza tipica dei prodotti naturali.

VARIETY AND BOOK-MATCHING

ACTIVE SURFACES includes a certain number of different surfaces, for the same product, to create pleasing aesthetic variety in the layout. When preparing the order, the surfaces are selected randomly, and therefore book-matching is not guaranteed. ACTIVE SURFACES is the outcome of the bond between earth and fire. Any book-matching between two pieces is subject to the typical tolerance of natural products.

VARIABILITÄT UND BOOK-MATCHING

ACTIVE SURFACES wurde für jedes Produkt mit einer gewissen Anzahl an unterschiedlichen Mustern geplant, um nach dem Verlegen ein angenehmes ästhetisches Ergebnis zu erzielen. Die Auswahl der gelieferten Muster erfolgt nach dem Zufallsprinzip, die Fortsetzung der Maserungen zwischen den bestellten Stücken wird daher nicht garantiert. ACTIVE SURFACES ist ein Produkt, das der Kombination der Erde mit dem Feuer entstammt. Die Fortsetzung der Maserung unter den einzelnen Stücken hängt von der typischen Toleranz der Naturprodukte ab.

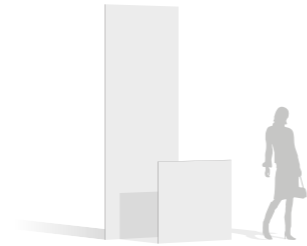

VARIABILITÉ ET BOOK-MATCHING

ACTIVE SURFACES prévoit un certain nombre de faces différentes en fonction de la quantité de produit afin de créer une variabilité esthétique agréable après la pose. En phase de préparation de la commande, la sélection des faces est effectuée de manière aléatoire, par conséquent, la veinure continue entre les pièces commandées n'est pas garantie. ACTIVE SURFACES est un produit dérivant de la combinaison de la terre avec le feu. La continuité éventuelle entre une pièce et l'autre est soumise à la tolérance typique des produits naturels.

Macchia aperta / Book match /
Mustersymmetrie / Livre ouvert

“**Book match**” o “**macchia aperta**” sono termini con cui si indica la possibilità di posare lastre in continuità tra di loro ottenendo un effetto speculare della composizione. Il risultato estetico descritto, è particolarmente ricercato nell’ambiente dei marmisti ed è sinonimo di altissima qualità estrattiva in cava.

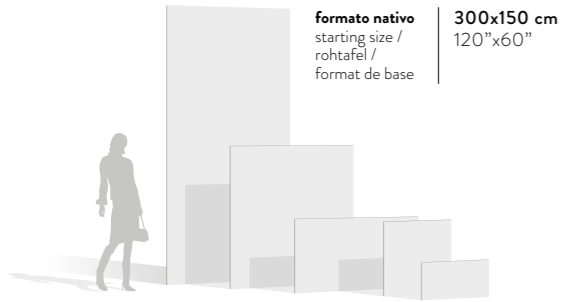

“**Book match**” is a term used to describe the technique of laying panels side by side to produce an effect where the pattern is mirrored. The aesthetic result achieved is particularly esteemed by those who work in the marble industry, and is synonymous with high quality extraction from the quarry.

“**Book Match**” oder **Mustersymmetrie** sind Begriffe, die auf die Möglichkeit hindeuten, Platten fortlaufend nebeneinander zu verlegen und so einen Spiegeleffekt der Gesamtanordnung zu erhalten. Das beschriebene ästhetische Ergebnis ist bei Marmorverarbeitern sehr begehrt und ein Synonym für hohe Abbaugüte im Marmorsteinbruch.

« **Book match** » ou « **livre ouvert** » sont des termes utilisés pour décrire la possibilité de poser des dalles en continuité entre elles afin d’obtenir un effet de composition en miroir. Le résultat esthétique à peine décrit est particulièrement recherché dans le domaine des travailleurs de marbre, et est synonyme de très de haute qualité d’exploitation minière dans la carrière.

Macchia aperta / Book match /
Mustersymmetrie / Livre ouvert

**B O O K
M A T C H**

“**Book match**” o “**macchia aperta**” sono termini con cui si indica la possibilità di posare lastre in continuità tra di loro ottenendo un effetto speculare della composizione. Il risultato estetico descritto, è particolarmente ricercato nell’ambiente dei marmisti ed è sinonimo di altissima qualità estrattiva in cava.

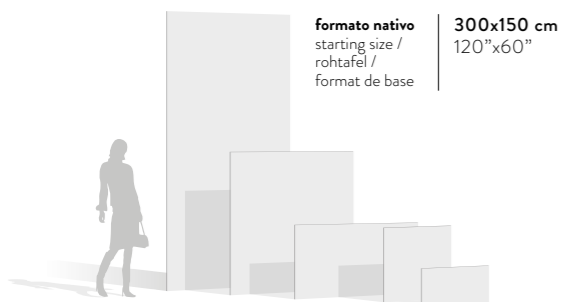

“**Book match**” is a term used to describe the technique of laying panels side by side to produce an effect where the pattern is mirrored. The aesthetic result achieved is particularly esteemed by those who work in the marble industry, and is synonymous with high quality extraction from the quarry.

“**Book Match**” oder **Mustersymmetrie** sind Begriffe, die auf die Möglichkeit hindeuten, Platten fortlaufend nebeneinander zu verlegen und so einen Spiegeleffekt der Gesamtanordnung zu erhalten. Das beschriebene ästhetische Ergebnis ist bei Marmorverarbeitern sehr begehrt und ein Synonym für hohe Abbaugüte im Marmorsteinbruch.

« **Book match** » ou « **livre ouvert** » sont des termes utilisés pour décrire la possibilité de poser des dalles en continuité entre elles afin d’obtenir un effet de composition en miroir. Le résultat esthétique à peine décrit est particulièrement recherché dans le domaine des travailleurs de marbre, et est synonyme de très de haute qualité d’exploitation minière dans la carrière.
